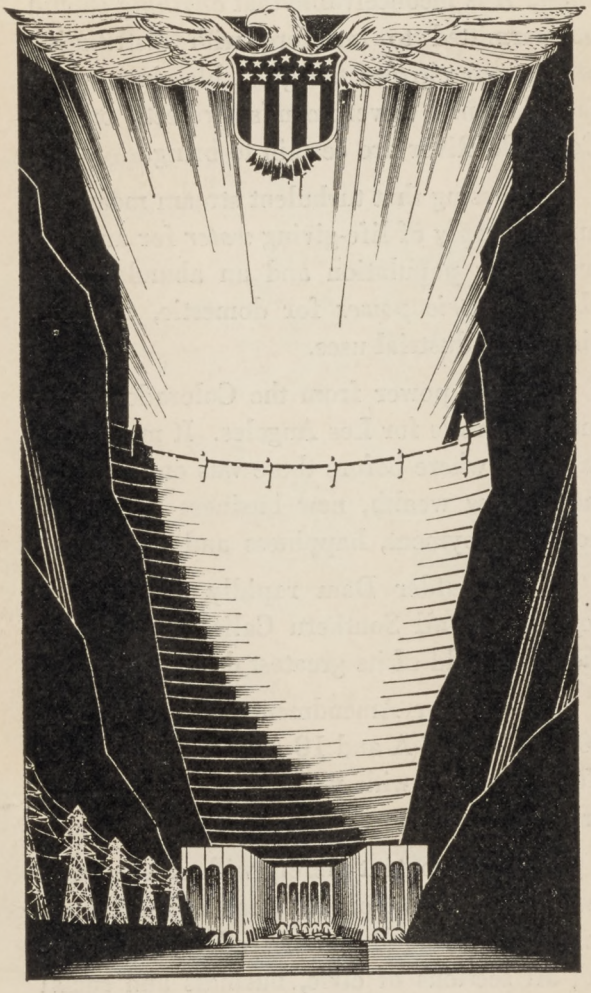
Bring...

BOULDER DAM POWER

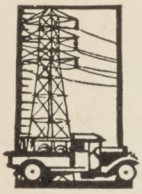
...to Los Angeles



CHARTER AMENDMENTS

2-A, 8-A, 9-A, 10-A,
11-A, 17-A, 18-A,

• • PAVE THE WAY ° •



Nothing is of greater importance to the people of Los Angeles at this time than the opportunity to share in the tremendous benefits rapidly materializing at Boulder Dam. It is inconceivable that *anything* should be permitted to interfere with distributing among our citizens the great blessings which the National Government's projects on the Colorado River are certain to bring.

Harnessing that turbulent stream means an ample supply of life-giving *water* for an ever-increasing population and an abundance of *cheap electric power* for domestic, commercial and industrial uses.

Bringing power from the Colorado means more payrolls for Los Angeles. It means two factories where before there was only one. It means new wealth, new business opportunities; employment, happiness and prosperity.

With Boulder Dam rapidly approaching completion, all Southern California is upon the threshhold of its greatest development.

City Charter Amendments 2-A, 8-A, 9-A, 10-A, 11-A, 17-A and 18-A open the door for *YOU* to share with your neighbors in these great opportunities.

Do not be content merely with casting your own ballot in favor of these Amendments. Join with the hundreds of leaders, representing all sections of civic, business and social life of the City, in their efforts to see that *Los Angeles* gets a "square deal" on November 8.

Tell Your Neighbor

AMENDMENTS 2-A, 17-A

These two amendments to the City Charter are purely formal. They eliminate inconsistencies in relation to other Amendments. Should be adopted for sake of harmony.

YES	X
NO	

AMENDMENT 8-A

Provides for setting up of special budgets and making special appropriations for needed extensions and betterments of Water and Electric service. With respect to financing, it enables the Board to function as any well-conducted business organization functions. This Amendment is VITAL and should be approved.

YES	X
NO	

AMENDMENT 9-A

After providing for all normal demands upon the Department of Water & Power including the payment of interest, amortization, maintenance, and operation, surplus earned revenues may be applied when, and in the order, determined by the Board to be to the best interests of the people in the improvement of Water and Electric service. Vote "YES" and urge your friends to do likewise.

YES	X
NO	

AMENDMENT 10-A

Clarifies the "emergency" clause in the Charter and enables the Board to borrow money for needed works, upon terms and conditions approved by the Council and Mayor. All such short term loans to be repaid out of earned revenue in not to exceed 12 years, and the total amount outstanding at any time shall not exceed 50% of the gross revenue of preceding year. This Amendment is of great benefit to *you!*

YES	X
NO	

AMENDMENT 11-A

The City is seeking aid from the Federal Reconstruction Finance Corporation for the building of a transmission system from Boulder Dam. This Amendment removes any possible question as to the City's right to accept such aid when and if granted. All moneys to be repaid out of earned revenue. Permits Board to enter into contracts for expenditure on account of extensions and improvements of works of the Department. 11-A is all-important. Vote "YES."

YES	X
NO	

AMENDMENT 18-A

Insures the right of the Harbor, Library and Department of Water & Power to purchase supplies and materials through their own purchasing departments. Eliminates duplication of effort and waste. Makes for efficiency and is good common business sense. Set this matter RIGHT,—once and for all time.

YES	X
NO
